Surplus Stock Sale

Of Women's Shoes and Oxfords.

In sizing up this stock we find too many shoes here for this late in the season. It might do for some stores to let the regular selling reduce the stock. Not so here. We want each season's stock to go during the season for which it was bought and in the time calculated. It is our purpose now to force the selling of Women's Summer Shoes and Oxfords at the point of unprecedented low prices in order to get the stock down to the mark where it should be with the least possible delay. These bargains should create "double-quick" selling. A week's business to each single day—we hope.
